A man without money or responsibility can "guarantee" anything without running any financial risk—but when you buy Certain-teed Roofing you are buying to you as the purchaser of roofing—that's why you should insist on Certain-teed.

U. S. Commissioner in El Paso. Hywel Davies, commissioner of conciliation for the United States government, arrived in El Paso Monday evening for the purpose of conferring with Joseph H. Meyers and the mine operators on the issues involved in the Clifton-Morenci mine strikes.

Mr. Davies stated that he would be engaged for several days in making a digest of the facts from the viewpoint of the operator and the employees, that he would then go on to the mine camps, making a personal survey of the conditions as he found them there, and later hold a conference with governor G. W. P. Hunt, of Arizona.

"It was sent out by the Associated Press," said Mr. Davies, "that I came here for the purpose of mediating. This is a mistake. I have served in this capacity so many times that if I start out for any place the inference is that I am on the way to arbitrate. I do not know what the conditions are and until I do I cannot say anything. I shall discuss the matter thoroughly with mine managers who are in El Paso."

Mr. Davies is from Lexington, Ky., and has been identified with the coal operators of Kentucky for the past 23 years. "I have usually been the spokesman for the operators, but I believe in fair play for both," he said.

CONDEMNED MEN

Brief Filled in Their B'half in The Supreme Court This Week.

PHOENIX, Nov. 8.—A brief was filed in the Supreme Court this week by Stuckmeyer and Jenckes in the cases of Francisco Rodriguez, Miguel Peralta, Eduardo Perez and N. D. Chavez, under sentence of death at Florence.

These cases are on appeal from an order by Judge McAllister last summer refusing to release the men on a writ of habeas corpus which he had granted, he having been called in the absence from the state of Judge Baughn. The chief points in the brief are that the imprisonment of the men is in violation of the fourteenth amendment to the United States and of Article II of the state constitution; that the death warrants were void in that the words, "state of Arizona" as prescribed by the constitution had been omitted. It is further contended that the men had already been placed in jeopardy.

The sure thing about an investigation is the expense account.
